

ALISON McGUIRE
Principal Consultant
Compliance Services International – Europe

PROFESSIONAL EXPERIENCE

Alison has extensive regulatory & research experience spanning over 18 years. Alison performs risk assessments for pharmaceuticals, plant protection products and chemicals, in addition to working on biocides (in terms of legislative success, two biocidal product active substances on which Alison worked have now both received Directive 98/8/EC Annex I inclusion recommendations from the Rapporteur Member States (Ireland and the UK) and a new active substance which Alison supported is now on Annex I to Directive 98/8/EC (Rapporteur Member State UK)). .

Alison is an experienced analytical chemist and prior to joining CSI spent 7 years managing and developing residue chemistry services at the former Inveresk Research, where her group of 18 staff provided analytical support for studies related to the development and registration of agrochemicals and veterinary pharmaceuticals. Additional experience includes the conduct of field residue trials, soil dissipation/accumulation studies and operator exposure studies throughout Europe. Alison has also assumed responsibility for all aspects of residue depletion studies conducted in farm animals. In addition to her management skills, she has a strong background in the development, validation and application of analytical methods using a variety of analytical techniques including GC, GC-MS, HPLC, LC-MS and LC-MS/MS. Alison is CSI-Europe Deputy Manager.

CREDENTIALS

1987-1991 BSc (Hons), Agricultural, Food and Environmental Chemistry with Pure Chemistry, University of Glasgow

PROFESSIONAL QUALIFICATIONS

May 2004 Awarded status of Chartered Scientist

Oct 1999 Awarded status of Chartered Chemist and Member of the Royal Society of Chemistry

MEMBERSHIP OF PROFESSIONAL BODIES

Member of the Royal Society of Chemistry

Member of the Chromatographic Society

PROJECT EXPERIENCE

- Environmental Risk Assessments for human pharmaceuticals in accordance with EMEA Guidelines
- Biocidal Product registration issues under Directive 98/8/EC.
- Conversion of Plant Protection Product Dossiers to Biocidal Product Dossier format.
