

# EU REGULATORY SERVICES

*Regulatory & Scientific Specialists*

*Support for Product Registration and Stewardship Issues*

## **EU Regulatory Affairs**

Regulatory and environmental strategies for plant protection products, biocides, specialty & industrial chemicals, human pharmaceuticals and animal health products.

## **Dossier Development & Submission**

Preparation and submission of active substance and product dossiers for EU-wide and Member State registrations.

## **Data Development**

Identification of required studies to support registration, data gap analysis, placement and monitoring of studies at contract research organizations, review and interpretation of study results, and Good Laboratory Practice compliance consulting.

## **Toxicology & Chemistry Consultation**

A multi-disciplinary team of CSI scientists supports registration activities by providing expert guidance on toxicology, ecotoxicology, product & residue chemistry, environmental fate, and efficacy.

## **Risk Assessment**

Extensive experience in all aspects of human health and ecological risk assessment. Hazard identification, effects analysis, exposure assessment, and risk characterization.

## **Regulatory & Scientific Insights**

Advice on emerging regulatory and scientific developments that may impact current and future registrations. Recommend approaches to bring client products into compliance with new legislation.

## **Task Force Representation / Administration**

Extensive experience in co-ordination of industry task forces. Undertake both administrative and technical roles for task forces and consortia.

### **Offices in the USA and Europe**
