

# **GOOD LABORATORY PRACTICE (GLP) & QUALITY ASSURANCE CONSULTING**

**Qualified GLP  
Professionals**

**Supporting the  
Chemical Industry  
with OECD, EPA,  
and FDA QA  
Expertise**

## **Third Party Quality Assurance (QA) Support**

CSI's QA professionals provide GLP expertise to comply with International Organization for Economic Cooperation & Development (OECD), U.S. Environmental Protection Agency (EPA), and U.S. Food and Drug Administration (FDA) GLP regulations and principles.

## **Contract Research Organization (CRO) Supplementary Support**

On-site placement of QA professionals at CRO locations to serve as supplementary support to in-house GLP units challenged with workload or personnel transition. Additional services include: QA support for small or start-up companies; GLP training assistance; and off-site support.

## **Data and Report Audits**

Review of GLP study raw data and reports in regard to quality and integrity of information submitted to regulatory agencies. Data and reports assessed for accuracy, completeness, and compliance with study protocols and GLP regulations.

## **Standard Operating Procedures (SOPs)**

On-site or remote support to scientific staff for review and amendment of SOPs to ensure that appropriate study procedures are in place as defined by GLP regulations.

## **CRO Inspections and Audits**

On-site inspections and audits on behalf of study sponsors of CROs considered or selected to conduct GLP studies in support of chemical product registration. Services include: in-process study inspections and facility audits; evaluation of internal systems and procedures; mock regulatory inspections to identify GLP deficiencies; and recommended improvements.

## **CSI Regulatory and Scientific Expertise**

CSI's QA professionals bring a wealth of experience to GLP QA consulting. Our consultants have worked in CRO, government, and/or industry positions with regulatory science expertise in human health toxicology, environmental toxicology, and product chemistry.
