

# **STUDY MONITORING**

## **By Regulatory & Scientific Specialists**

*Data Development  
Support for Product  
Registration*

### **Product Registration Compliance**

Study strategies for registration of agrochemicals, home & garden products, biopesticides, consumer/industrial chemicals, and biocidal/antimicrobial products. Study compliance with testing guidelines of the U.S. Environmental Protection Agency, U.S. Food and Drug Administration, European Union, and international regulatory authorities.

### **Data Development**

Identification of required studies to support registration intent, data gap analysis, study protocol development, review and interpretation of study results, review of laboratory study reports, laboratory and agency liaison.

### **Study Placement**

CSI has experience working with a number of contract research organizations (CROs) which conduct regulatory studies. We can recommend laboratories for specific studies, arrange study placement, and provide study monitoring to assure compliance with required testing protocols.

### **GLP Oversight**

CSI's Quality Assurance professionals provide Good Laboratory Practice (GLP) expertise to comply with EPA, FDA, and Organization for Economic Cooperation & Development (OECD) GLP standards. Support available for CRO lab and study GLP audits on behalf of study sponsors.

### **Study Expertise**

CSI staff has extensive experience in data requirements for a variety of chemical products. We can provide consulting support to place and monitor CRO studies in the following areas:

**Product Chemistry**

**Analytical Chemistry**

**Product Performance**

**Residue Studies**

**Toxicology**

**Biocidal/Antimicrobial Product Efficacy**

**Human Exposure**

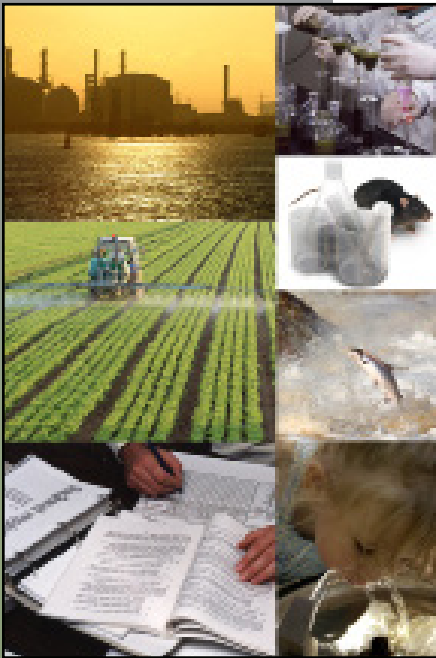

**Endocrine Disruptor Evaluations**

**Ecological Effects**

**Endangered Species Analysis**

**Environmental Fate**

**Exposure Modeling**

*Study Placement,  
Monitoring and  
Report Review*
