

COMPLIANCE SERVICES INTERNATIONAL

Global Regulatory and Environmental Strategies since 1988

Senior/Principal Consultant - Toxicology Focus (European Headquarters)

Compliance Services International (CSI) has a vacancy for a **Senior/Principal Consultant** attached to its office in Edinburgh, Scotland.

CSI provides regulatory and scientific consulting services to the agrochemical, biocide, chemical and consumer product industries.

Candidates should ideally have a proven ability in serving private sector clients and interfacing with government agencies. The successful candidate will provide regulatory assistance to registrants seeking to comply in particular with European Union (EU) registration requirements. The position requires close interaction with registration specialists, scientists and support staff at CSI's offices in the EU and USA.

Key qualities for a successful candidate include initiative, the ability to work well in a "virtual" team environment, and a positive customer focus. Computer literacy and good verbal and written communication skills are essential, and some travel will be required.

Requirements:

At least a degree level or MSc qualification in toxicology, combined ideally with direct personal experience of study directing, placement and/or monitoring of safety studies, data review and evaluation, human health risk assessment, dossier preparation and submission, and regulatory liaison, preferably supported by Chartered Biologist/Chemist/Scientist and/or European Registered Toxicologist status or equivalent.

CSI specialises in regulatory and scientific support for product registration and environmental compliance. Established in 1988, our services include regulatory affairs, risk assessment, environmental modelling, litigation-scientific support, information management, and task force management. Offices in the USA and Europe.
